

Shaginappi Park

Acquired in 1997, this park is the site of a former Boy Scout camp. The park is a natural area of 100 acres of wetlands, lakeshore, woods and prairie. Situated adjacent to Columbia Park, the park shares Calumet Harbor. Pipe Creek winds through the park property. Hiking and skiing trails, a snowmobile trail and the restored lodge are the primary attractions to the park. Due to extensive archeological findings on the site, the park has potential for historical interpretation and a museum.

Rustic lodge rental is available at special request. Please call (920) 929-3135 for more information.
